

Mobile Fire Training Container MFTC-45-2017

Technical Data

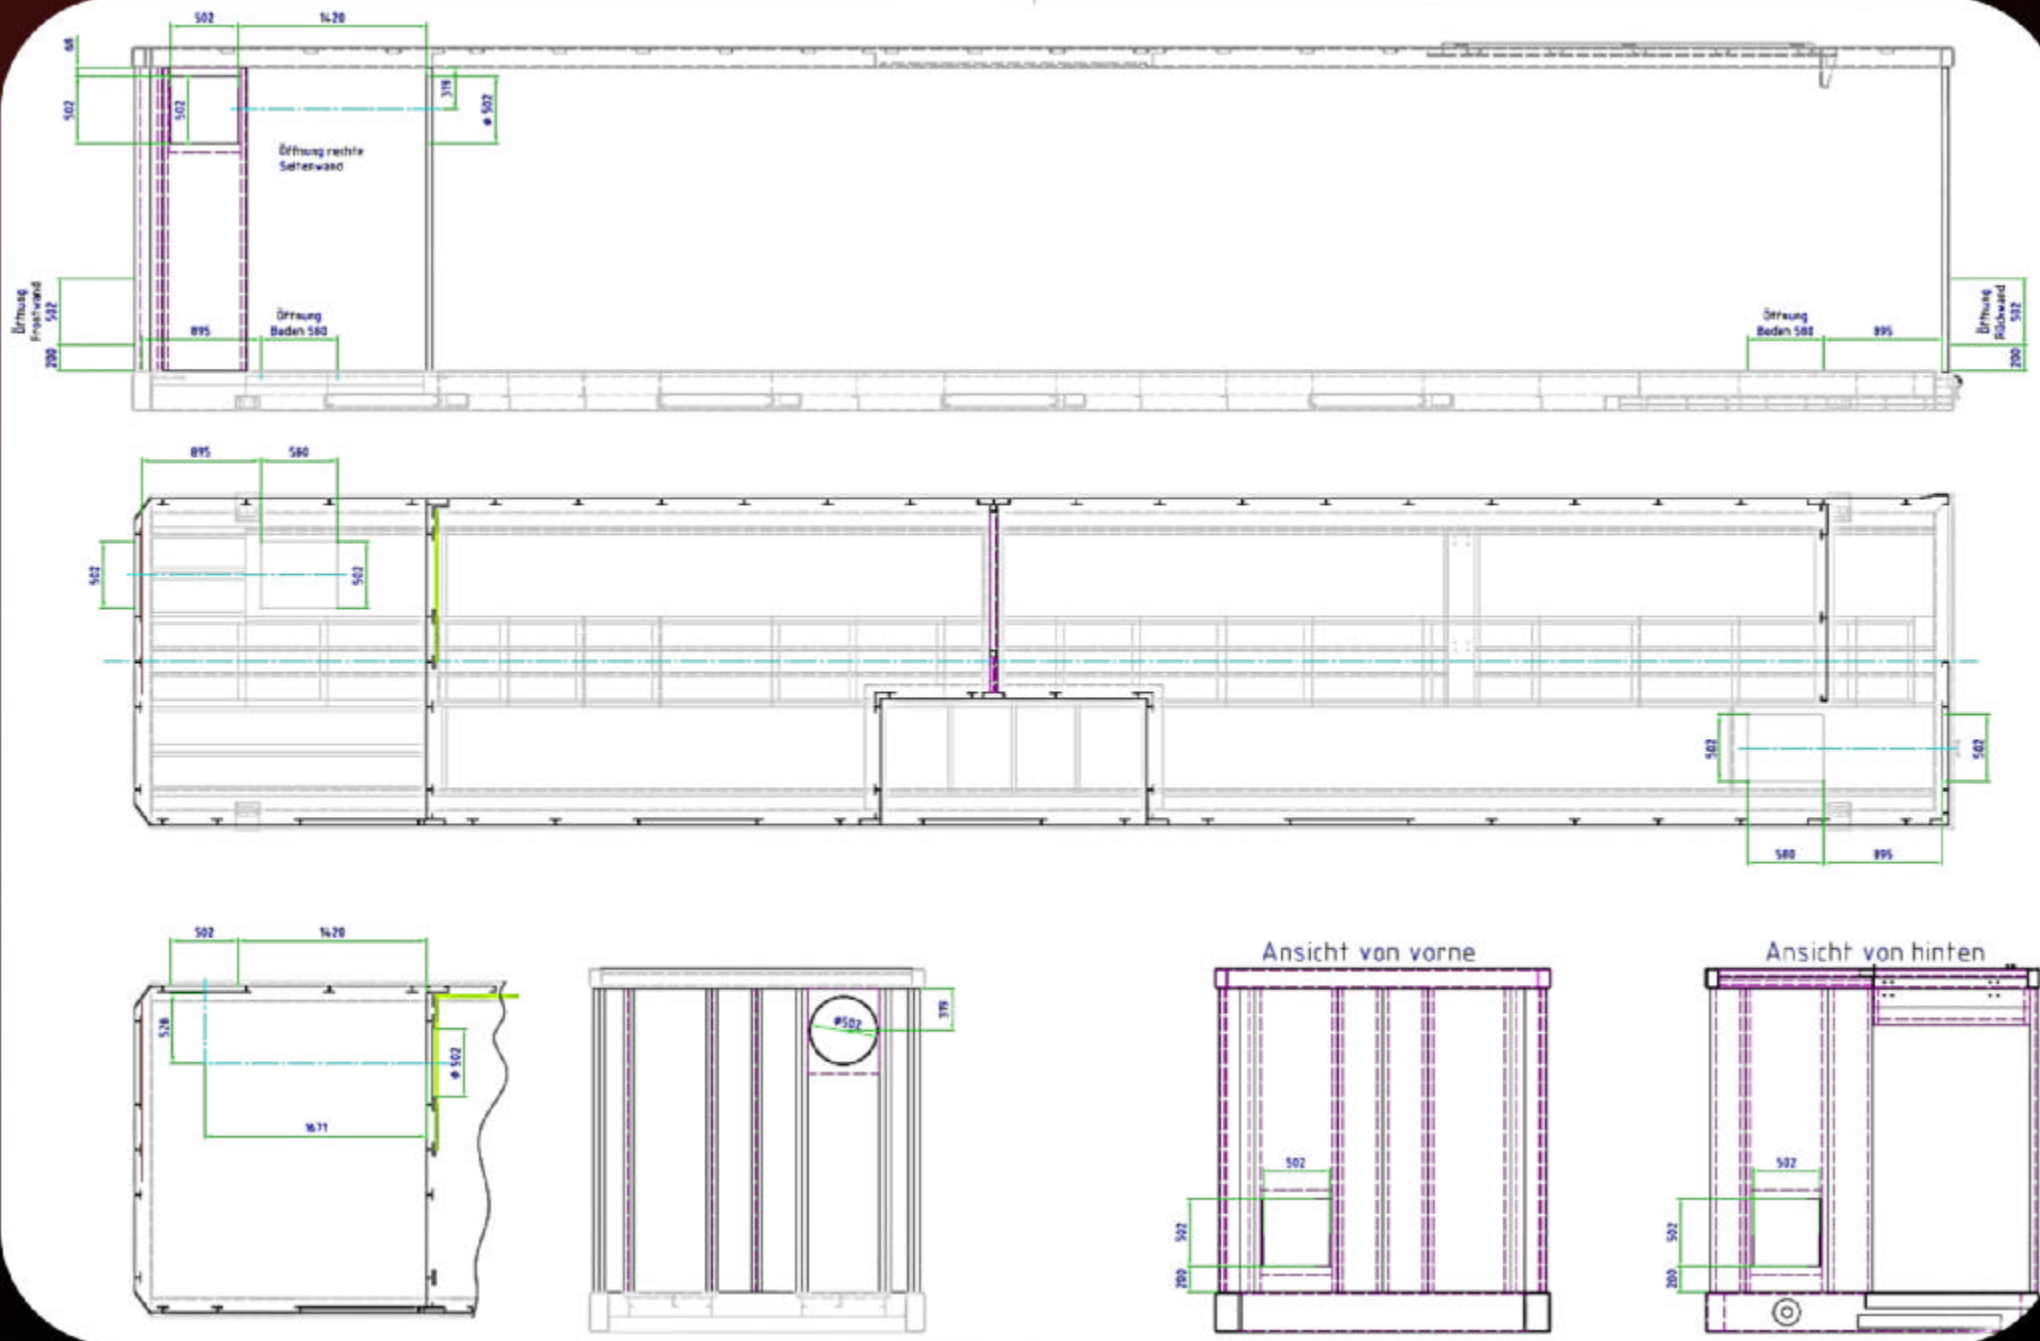

- Length: 13,5m
- Three-axle Semitrailer
- Systemheight: 4,0m
- Gross weight Container: 12.800 kg
- Unloaden weight Semitrailer: 5.950 kg
- Gross Systemweight: 18.750 kg
- Max. Power consumption: 400V / 32A
- Power supply current fire places: 24V
- Operating pressure LPG: ~ 2 bar after gas control line in technical room
- Max. water drainage: 400L/min
- Material Container: Corten-Steel
- Material Isolation: Aestuver 20mm
- Material Super structures: stainless steel
- Material fire places: stainless steel
- Programmable Logic Controller system
- Number of fire places: 6

A Monitoring
Control Cabinet (Touch-Display) in Control Room. Wireless Remote Control Unit. Microphone, Air Condition and Emergency Stop.

B Fire Places and Accessories

1. Flashover
2. Bed or Sofa fire
3. Kitchen fire with Frying Pan
4. Flange fire (activ valve)
5. Staircase fire
6. Gasbottle fire [1 Gasbottle activ with Valve. 2nd Gasbottle inaktiv, (for recuperation)]
7. Hot Door (electrically heated)
8. Smoke Generators

Internal Container Layout

3 retractable stairs with foldable railing on the left hand side
and one on the rear to the gas supply room

1 foldable ladder for
Roof entry

Fireplaces

Flashover

Bed Fire

Fireplaces

Kitchen / Frying Pan Fire

Flange Fire

Fireplaces

Gasbottle Valve/Hose Fire

Staircase Fire

Flashover

Flange Fire

Bed Fire

**Exterior staircases
Illumination LED-Balloon
Roof Railing**

Technical Room 1

- Exhaust Air Ventilator
- Electronic System Cabinet
- Compressor:
combustion air to pilot burners
«forced to supply»
- Combustion Air Ventilator

Safety Systems:

- Gas monitoring fire room & Gas Supply Room
- Emergency Stops
- Fire Room Temperature Sensors
- Emergency LED-Lights

Gas Monitoring System

- Infrared Sensor (Fire Rooms)
- double (redundant) IR-Source
- heated Optics
- simple Calibration
- low maintenance
- Pellistor Sensor in Gas Supply Room

Gas Supply

Gas Bottles in Technical Room 2

- 8 Forklift gas bottles 11 kg or
- LPG gas bottles 33 kg

FAS Vaporizer

- Performance 32kg/h
- Power consumption 18 kW

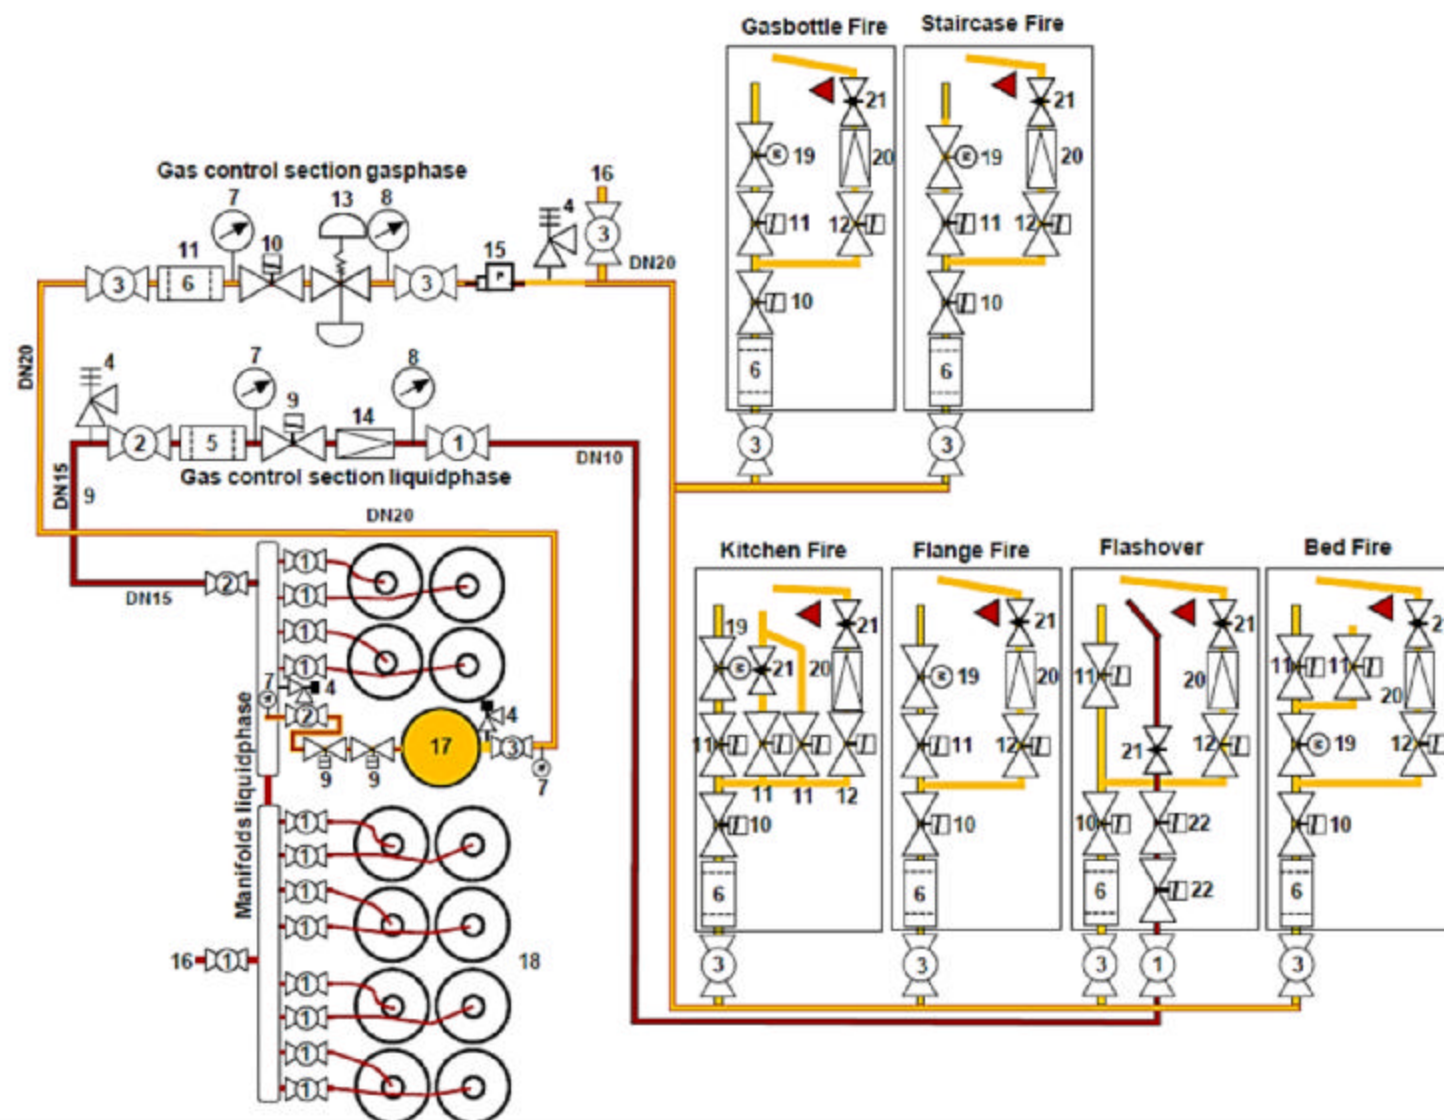

Projekt: Mobile Fire Training Container
Civil Defence, Abu Dhabi, United Arab Emirates

Naderer
Firetrainer

Gasinstallation Layout MFTC-45-2017

Gas Appliances

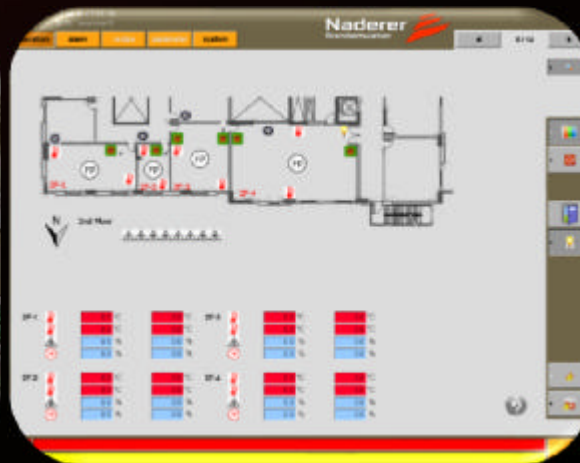

- 1 Liquid gas ball valve with lever DN10
- 2 Liquid gas ball valve with lever DN15
- 3 Gas ball valve with lever DN20
- 4 Safety valve 3129 15.6 bar
- 5 Gasfilter liquidphase DN15
- 6 Gasfilter gasphase DN20
- 7 Manometer 0-16 bar
- 8 Manometer 0-6 bar
- 9 Solenoid valve,piston, G1/2",Typ 8670
- 10 Solenoid valve,membrane, G3/4",Typ 8209
- 11 Solenoid valve,membrane, G1/2",Typ 8209
- 12 Solenoid valve,membrane, G3/8",Typ 8209
- 13 Gas pressure regulator VSR 0137
- 14 Liquid gas pressure regulator, REGO-1586VH
- 15 Pressure switch, JUMO-MIDAS 401001
- 16 Pressure release line, "to the outside"
- 17 Vaporizer, FAS2000, 32 kg/h
- 18 Gas bottles, 11.5kg, with immersion tube
- 19 Gas motor valve, G1/2",Typ 8288
- 20 Gas pressure regulator,11-stages,type 016
- 21 Gas needle valve, 8mm
- 22 Solenoid valve,piston, G3/8",Typ 8670
- Flame scanner
